INTRODUCTION.

This magnificent sale we offer as our last one of the season. The catalogue fairly bristles with pieces of numismatic importance and interest. We herein treat collectors with every class of coins, medals and tokens, not to neglect to mention an assemblage of life saving medals, war medals and orders, sufficient and important enough to dazzle the eyes of a dozen German field Marshals or Commanders of the Legion of Honour of France. It is in fact the most important sale that we have had since the great Gehring Sale of American coins. In gold we have rarities galore from the fifty dollar slug down to the tiny quarter dollar, including two four dollar gold pieces. We have a great line of United States silver taking in some of the prize American rarities in wonderful state of preservation such as the 1838 New Orleans Half Dollar and 1827 Quarter. We have a valuable line of American Colonial and Continental coins. There is a great collection of U. S. proof coins. There is a magnificent collection of United States cents with some of the great rarities as to date and condition. The ancient lines include probably 500 lots in gold, silver and bronze. There is a fine general selection of medals, tokens, encased stamps and paper money. Don't overlook the great Wright collection of Private Gold Patterns and Conder Tokens of Great Britain. This latter section alone numbers about 300 lots. The Deacon collection has some splendid cut gem stones, and an unusual lot of uncut semi-precious stone specimens. Mr. Deacon has sold his home in Virginia and has gone to Europe for an extended stay, closing out his entire collection of gems and specimens.

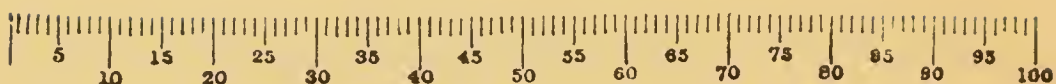

This sale offers a treat to all classes of collectors. There is rarity, variety, quality and quantity all rolled into one. Don't miss the sale. Step right into New York and attend it personally. A dozen railroads will carry you to our city. There will be four days of sale, on Wednesday, Thursday, Friday and Saturday, May 16th, 17th, 18th and 19th. Don't miss it. No other sale of ours until October next.

CONDITIONS OF SALE.

This is a bona-fide public sale, for prompt cash settlement, and irresponsible persons who are not sure whether they can pay for what they bid on, are asked not to bid. The cataloguer has taken special pains to describe each lot accurately. Errors will be corrected, but he reserves the sole right to decide upon any claims. No corrections or refunds will be made, and no lots can be returned, unless the bidder submits his case in writing **within 30 days of the date of the sale.**

Coins and medals are sold at so much per **PIECE**, and no lot will be separated. The auctioneer will accept any bid up to 50c., then 5c up to \$2.50, when 10c. advance must be bid, up to \$10.00, when no advance under 25 cents will be accepted. If there are 5 pieces in the lot and you wish to pay \$5.00 for the entire lot, then bid \$1.00.

Auction sales are **strictly for cash.** Parties unknown to me and bidding for the first time, must give bank or other reliable reference, or their bids will not be executed.

Forward your bids as early as possible, as thousands of bids have to be entered. Do not make ridiculously low bids, such as 10c. and 15c. on foreign silver coins worth several times over as bullion. Write your bids plainly, with a pen if practicable.

Where the number of pieces in a lot is not given after the description, there is but one piece in the lot.

Be sure you bid on the lot you wish to buy.

All coins, etc., are genuine unless otherwise described.

A charge of 5 % will be made to cover packing and shipping, but where the parcel is bulky an additional packing charge will be made. No charge made for bidding except for lots actually purchased. Remit by money order or New York draft.

If any further information is required as to valuation of lots, or how to bid, please write the cataloguer, **THOMAS L. ELDER.**

Important Notice. We keep two books of the sale recording each lot as sold, and we will not accept any sale records from outsiders. Our records are final.

No priced catalogue will be furnished of this sale.

THE WRIGHT COLLECTION OF TOKENS OF GREAT BRITAIN.

Note:—These tokens, many varieties of which were issued, of the sizes of farthing, half penny, penny, two penny, etc., circulated in Great Britain

during the 18th and 19th centuries. They took the place of small regal coins during a scarcity of the latter, being an excellent substitute for the regular coinage. They present a most interesting series, with their quaint types, odd political and patriotic mottoes, with their advertisement and illustrations of the wares and trades of the merchants and individuals who issued them. Many of them portray interesting historical and political events following the close of the American Revolution. They were issued in 39 English counties, also in Ireland, Scotland and Wales. Many of them bear on one side the arms and mottoes of the various counties in which they were issued. From the great number of them which we have met with in worn condition these pieces must have had a very general circulation. Many of them seem to have been profitable advertisements for those whose names they bear, for certain firms issued dozens of varieties or dies. While a good many are common and yet obtainable for a small price, still quite a few are rare and very hard to obtain, especially in the fine condition in which they are found in the Wright Collection. Likely there never has been such a fine collection of them offered here.

In their classification we have used the well known work by James Atkins, published by Lincoln in 1892.

In every case the first figure refers to the page in Atkins work, and the figures immediately following in parenthesis refer to the number of the token on that page. In bidding be careful that this is understood.

THE CELEBRATED 1838 HALF DOLLAR OF THE NEW ORLEANS MINT.

- 2209 1838. Bust type of Liberty, O over the date, near the bust. Reverse. Eagle. UNITED STATES OF AMERICA. HALF DOL. Practically uncirculated. Excessively rare. The first specimen offered at public auction since our sale of the James B. Wilson Collection in 1908, and we believe it had not been offered at auction prior to that since the R. C. Davis Sale. There are probably not over four specimens known altogether, so it is by all means the rarest mint-marked half dollar, if not indeed the rarest authenticated half dollar. We are very skeptical of the so-called 1853 Half Dollar "without rays or arrows." The only one of it we ever saw was Granbergs, which was by no means a very fine specimen and bore many traces of wear, which also lends doubt to its origin. It had come to him from the DeWitt Smith collection. The specimen of the 1838 sold at our James B. Wilson sale in 1908 under spirited bidding. We look for a worlds record for a half dollar of the mint-marked variety at this present sale and the coin should bring at least double the price it did in 1908, if not more, in view of present value of the silver dollar and the present prices of everything else. The 1875 \$3.00 and the 1798 Half Eagle with small eagle may be cited as to price advances since 1908.

On first impulse we are inclined to treat this half dollar and the one following to a mild cyanide bath, to make it brilliant uncirculated, but we have decided to let the buyer do that. The two coins with several others were kept in the old leather pocket-book in which it now rests, which accounts for the slight tarnish of the two coins. The coin is of exactly the same weight as the one herewith dated 1839 of the same mint. We believe the collector went directly to the New Orleans mint and got the coins there the years they were struck. Their condition which is identical indicates they were held together in the same way since the year 1839.

THE 1839 HALF DOLLAR OF THE NEW ORLEANS MINT.

- 1.75 2210 From the same collection and kept with the last half dollar. Their appearance as to condition is identical. Both show the same slight trnish. Uncirculated.
